About Us

We are pleased to introduce **GOKUL POLY VALVES PVT.LTD.** as one of the leading manufacturers of high-quality Agriculture Valves, Pipe Fittings, and Irrigation Solutions. With years of innovation, dedication, and technical excellence, **GOKUL** stands as a trusted name among farmers, distributors, and agricultural industries across India and global markets.

At GOKUL, every product reflects precision engineering, advanced technology, and strict quality control. Our range includes a complete lineup of PP, HDPE, UPVC, ISOTACTIC, and PVDF agriculture valves, irrigation fittings, drip components, sprinkler accessories, and pipeline management products designed to deliver maximum efficiency and long-term performance in the field.

Our Manufacturing Strength

Our state-of-the-art manufacturing facility, located in **Ahmedabad, Gujarat, India**, is equipped with modern machinery including vertical injection molding machines, drilling and lathe systems, advanced testing laboratories, and in-house product development setup. With a production capacity exceeding 3,00,000 valves and 1,50,000 fittings per month, we are capable of fulfilling small as well as large-scale agricultural needs.

Certified Quality You Can Trust

Our quality management system is certified under **ISO 9001:2015**, ensuring that every product meets strict global quality standards. With continuous R&D, advanced material selection, and precision molding, GOKUL products are engineered to withstand tough field conditions — from high pressure to extreme weather.

We are proud to be recognized as one of the most trusted producers of agriculture valves, irrigation components, and water management solutions.

The Gokul Advantage

- ✓ Best-in-class product quality
- ✓ Fast delivery and stock availability
- ✓ Long-lasting performance
- ✓ Trusted by thousands of farmers
